

AME 3623 4/16/13

Quiz #11

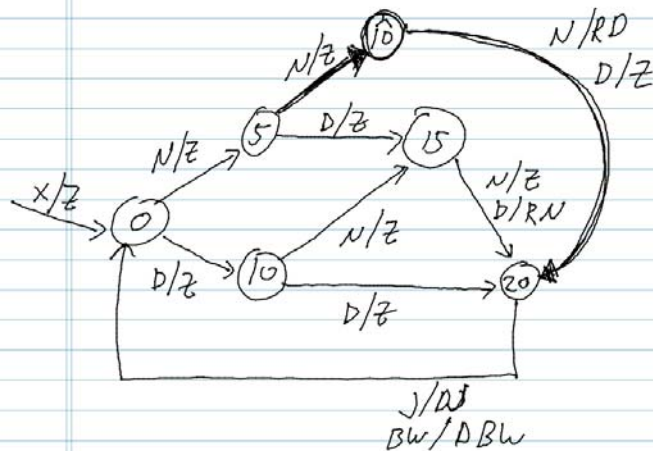

Given our vending machine, change its behavior so that:

1. Inserting 3 nickels in a row (from initial state) results in:

- a return of a dime

- ready to dispense.

2. All other behavior is the same

Not shown:
~~1/z~~
1/z
Bw/z } loop

for each non-20 state
